

THE MAGIC GARDEN

The building of the Magic Garden started this spring. Around 100 people worked on making it happen.

The essence of this magical garden lies in a lifestyle based on international community work and exchange programs, in form of a shared project, creating together day after day on site, using a community kitchen, purely living and interacting together.

Now in Dádpuszta, not only creating the totality of construction, but also representing a communal intellectuality.

Chambok House

15:00:00 Bélamühely – Instrument demonstration & jammin – in front of Chambok House

The band makes their's instruments (sounding objects) out of industrial trash, discarded objects, barrels, pipes, bicycle and computer parts, troughs, pans and paper boxes.

15:00:00 Darija Baric- Forest Path

FOREST PATH - Darija Baric(HR)

The aim is to learn how to prepare medical plants and how to make the whole healing preparation. Using the herbs picked in our areas (Croatia) which would be cleaned and prepared for the preparations. One would also learn how to physically and energetically clean can prepare plants, as well as how to establish the contact with the plants we use.

Several combinations of tea mixtures with various effects would be made.

Meditation and relaxation:

In the end a meditation would be practised as thanks to Mother Nature and plants for their healing properties and the energy that heals us. Finally, relaxation in order to finalize the energy work.

PLEASE NO FIREWORKS!

Dear Ozorians!

Here is a very very very important message:
Safety First of All!

There has already been a smaller and a larger fire and the festival hasn't even really begun.

PLEASE keep in mind that it's extremely hot, everything is dry and highly inflammable! So we all have to pay attention to preventing fires!

Do not throw cigarettes butts on the dry grassy ground, do not leave fires unattended, do not experiment with fireworks... and so on and on and on.

Let's keep ourselves safe and happy, and the festival from burning down.

PUMPUI: CINEMA, FOOD & MUCH MORE FUN...

Pumpui – an entity on its own within O.Z.O.R.A. has existed from the very beginning, since the 1999 Solipse festival.

Soon after this, **Atesz**, the founding father of the Pumpui experience travelled around the world, visiting festivals like Full Moon and Antaris. He has been one of the cornerstones of the Hungarian psychedelic subculture and so since the rebirth of O.Z.O.R.A. Pumpui has always been more than a simple location. It is a manifold space – where you can wake up having breakfast, relax while snacking, enjoy your daily cinema input and also experience your best before-and after-partying.

You won't be able to miss it, so don't miss it out – come, we are waiting for you at Pumpui!

WEATHER FORECAST

TODAY IS TUESDAY 7 AUGUST

32°C (90°F) NIGHT 21°C (70°F)

The bet is on! Which do you think was the hottest spot at the festival yesterday? It was really easy to get a tan in the 40-degree embrace of the sun. And there were lots of red-faced people running around the festival. Today we are waiting for that north wind to cool us down – our guest from the Carpathian Basin. If you meet the cold front, tell it to say 'hi' to everyone!

IF TOMORROW COMES, IT WILL BE WEDNESDAY 7 AUGUST

31°C (88°F) NIGHT
18°C (64°F)

Wednesday invites cloudy skies but the sun will be with us all the same, keeping us thirsty - for more and more of those summery warmth-filled moments. Mister Meteorologist promised us some powerful goose-bumping airwaves as well.

ASTROLOGY

As the Moon enters Taurus around noon, energies of joy can spread, be aware however to listen to both your feelings and your mind, that is the voice in your heart where the two meet. It's a good day to settle down and find your place and enjoy the surroundings.

LOONEY MOON VISION AND ART GALLERY

The Looney Moon Visions project was born to spread the deeply positive messages of visionary artists from around the world, creating a global network of connections while spreading their productions and sacred messages of beauty and harmony all over the planet. They believe in the power of connecting people and ideas through art. Curating their market, they create a non-linear community-based approach to achieving success by creativity.

Their space provides each event with a wide array of artistic activities - art gallery, art shop, workshops, land art, decor, video and light art installations, food & tea cafe, documentary screenings and engaging conversations.

They encourage their supporters and participants to share a healthy tea blend from their Visionary Food Bar at the

Marketplace, introduce themselves to their team and share some of their own visions and ideas.

Visit the Art Gallery at the Magic Garden in OZORA and JOIN US in creating positivity and light for the world in, out and around you.

Featured artist of the day: Luke Brown

Luke Brown is an intrepid explorer, part of a new generation of visionaries reconstructing the templates of culture as we know it. His art speaks of the spiritual mysteries in the human imagination. Much of his work emerges from a graceful synthesis of digital and painting mediums.

Developing his work through mix and remix technologies, Luke is constantly redefining his style as a spiritual medium of growth, using whichever artistic medium is best suited as a form of multidimensional cartography.

Luke's art has been shown internationally with visionary heavyweights such as Alex Grey, HR Giger, Robert Venosa and Ernst Fuchs. He is currently the resident of the lush Elfinstone rainforest in BC Canada. His website and portfolio can be viewed at spectraleyes.com

WHEEL OF WISDOM

Schedule of Program

Day one will have an opening ritual and five a closing ritual.

Outline of Program

Day 1 - August 8

Opening Ritual

Introduction to Wheel of Wisdom

South Direction

Mythic Consciousness

About the Wheel of Wisdom

The Wheel of Wisdom symbol is ancient, thousands of year prior the American Indian us of it. It has been seen on Rhodesian cliff dwellings that are 40,000 years old. It has appeared in just about every culture throughout the world. Tibetan Buddhist call it mandala. It can be seen in the Celtic cross. Everywhere it appears, it has a similar function: that of teaching wisdom and expanding consciousness.

American Indians used it as a teaching tool, enabling them to pass on their rituals and traditions orally through the use of the symbol. For them, Medicine means Wisdom. Through the symbol is significant, the reality it is pointing to is even more so.

OPENING DAY

What's New?

Our beloved, talented artists who enrich the line up of Ozora 2012, do not only embark on tours to represent psychedelic music live on gigs and festivals, but also keep themselves busy in the studio. Among them, Psymmetrix, who will rule the Main Stage from 4 am to 5.30, recently announced that they're currently working on an exciting remix of Tron's track "Low Disk Space" (who, by the way, will also play at the Main Stage on the 12th). Hopefully they'll share their new interpretation of this magical track during their set. We have some more exciting news, especially for the fans of Silicon Sound! His 2003 album, Pure Analog is now available in digital format on Bandcamp. What's more, he included two tracks, "Memento" and "African Daydream" for completely free, plus a hidden bonus track! Those of you who are keen on Hypnoxock's sounds will probably be the happiest to hear their re-edited version of "On A Way Of Life", which was specifically created for Ozora 2012! Don't miss their set at 10:45 am at the Main Stage! Of course the other artists on the line up also have surprises for you throughout the year, so be sure to keep yourself updated on their various official pages and websites available on the Internet. We hope you have a wonderful and unforgettable time during their sets.
